

55A HALL ST — FLOOR PLAN

Redrawn to scale from hand-measured field sketch

Scale: 3/16" = 1'-0" (1:64)

All dimensions in inches, as noted on sketch.

Not a survey — verify on site. 2026-08-06

NOTES

1. Room names and all dimension values are copied verbatim from the sketch.
2. Wall openings (gaps) and the two hatched features are not dimensioned on the sketch; they are drawn in proportion to the sketch and left unlabeled.
3. Sketch gives overall width 25"+148" = 173" at top and 34.5"+120" = 154.5" at bottom; the right wall is drawn tapering in the living room so both stay true, matching the lean in the sketch. Verify on site.
4. The 40" note beside the living-room step-out is placed as on the sketch; the step-out is drawn 40" deep at the jog (34.5" at the bottom wall).
5. Walls are single-line as sketched; wall thicknesses were not recorded.
